

## **Driveway Ordinance for the Town of Bristol**

All new driveways entering a Town Road such that natural flowage of water is obstructed shall require a culvert having a minimum diameter of 12 inches placed in the roadway drainage ditch. The cost of said culvert and installation shall be born by the property owner. No driveway drainage shall enter upon the travel way. Installation of culvert and adequate drainage shall be approved by the Highway Superintendent. (passed 03-04-76)

Amendment: All (new) driveways entering a Town Road such that natural flowage water is obstructed shall require a culvert having a minimum diameter of 12 inches, minimum length of 20 feet, placed in the roadway drainage ditch. The cost of said culvert and installation, maintenance and replacement shall be born by the property owner, with cleaning done by the Town. No driveway drainage shall enter upon the traveled way. Installation of culvert and adequate drainage shall be approved by the Highway Superintendent and/or his agent. Culverts shall be purchased from suppliers other than the Town. (passed at Town meeting 03/13/84)
